

ORIGINAL RECORDS
at the
AMERICAN BAPTIST-SAMUEL COLGATE
HISTORICAL LIBRARY

More than 500 volumes of original records of churches, associations, and state bodies have been placed in the American Baptist-Samuel Colgate Historical Library. These records have been placed here voluntarily. Baptist polity does not have any mechanism to require a local congregation to deposit its records at this site or at any site. As a result, the records of many Baptist churches over the years have been lost. The original records deposited here are arranged alphabetically by state. Records of state bodies are placed first, then associational records. Local church records are placed next, alphabetically by city or town and name of church. The few international records which we hold are found at the end of this inventory. Our holdings include microfilmed and photoduplicated copies as well. In the inventories below, original records are marked with an "O," microfilmed records with an "MF," and photocopied records with an "PC." Our holdings for any given church are not necessarily complete. Years listed represent the earliest records on deposit and the latest records on deposit; they are not inclusive in all cases. Researchers are welcome to contact the library for a more complete description of the records which we hold for a given church or body.

Search records by state.
