

Biographical Information of Ministers, Missionaries & Staff of the American Baptist Churches in the U.S.A.

From the 1930s to the 1960s, the Ministers & Missionaries Benefit Board collected personal biographical 'snapshots' of those who served God through the American Baptist Churches, USA. These have proved invaluable to researchers at the American Baptist Historical Society – sometimes academic researchers, oftentimes adult great- or grandchildren – who want to learn more about someone they may have never known. Will you please fill in the following and help MMBB and ABHS in their ministries?

Date

Name Email
